

Delivering Mobile Solutions to Mobile Customers

What Is Impatica ShowMate?

Impatica ShowMate is a small, lightweight hardware accessory to project PowerPoint presentations wirelessly from a BlackBerry handheld.

Priced at \$249.99 US, the ShowMate comes with a Bluetooth USB adapter, a 10 foot USB cable and a CD with "Impatica for PowerPoint, BlackBerry Edition" software to convert PowerPoint presentations for transfer to the BlackBerry, either through USB or over the Internet.

How Does It Work?

Impatica for PowerPoint, BlackBerry Edition software reduces PowerPoint files to as little as 5-10% of their original file size for efficient transfer over wireless networks and optimal viewing on the BlackBerry.

Once a presentation is loaded onto the BlackBerry, simply hook the ShowMate to the VGA input of any projector, monitor, LCD or plasma screen and the BlackBerry becomes a wireless (Bluetooth) remote control to advance the slides.

User Benefits

The ShowMate offers several new benefits to BlackBerry users, including:

- ability to view large PowerPoint presentations with graphics, charts, animations and slide transitions on the BlackBerry;

Delivering Mobile Solutions to Mobile Customers

- zoom features for enhanced viewing on the BlackBerry;
- projection of the presentation via Bluetooth, for display on any VGA enabled device;
- option to view the slide titles, text or presentation notes on the BlackBerry while projecting;
- ability to navigate to a specific slide to answer a question or emphasize a point;
- freedom to roam the stage and interact with the audience to deliver an engaging presentation;
- freedom to travel laptop free!

What Others Are Saying ...

“Impatica ShowMate is precisely the kind of added-value product that we hope to stimulate through our BlackBerry Alliance Program. The ShowMate further extends the BlackBerry’s unique value and is the next must-have accessory for the mobile professional.”

Jeff McDowell, Vice President of RIM’s ISV Program.
